Ancient future appears

Narada Recording group Ancient Future will perform July 29 at the Mystic Lake Night Club in Ashland. Ancient Future classifies their music as "world fusion music."

Ancient Future's skill at integrat-

ing diverse cultural outlooks into its brand of contemporary instrumental music was recognized last year by the California Arts Council, which awarded the group a Touring Program grant for the 1993-94 and 1994-95 seasons.

Asian Fusion, the band's latest album, spans the vast geographical and cultural expanse of Asia. It

marks the debut of Zhao Hui, China's premiere performer on the gu zheng (a board zither.) Celebrated internationally, Zhao Hui is considered a "national treasure" of China. Also performing is Vietnam naive Bui Huu Nhut, who plays the Vietnamese Dan Bau (a long, flexible single-stringed instrument) on the track Ja Nam.

Doug McKeehan plays piano and keyboards, Jim Hurley plays violin, and Ian Dogole is percussionist.
